ACCURATE INFORMATION FOR YOUR BUSINESS

Issue 049 - December / 2014 **SPECIAL ISSUE** Bimonthly Newsletter

Gulfood Manufacturing

Our participation at Gulfood Manufacturing was a big success! During the three days of the fair, over 180 people visited our booth mainly from the Middle East, North Africa and India, who have shown great interest in our products; we noticed a special interest in semi-finished peanuts and orange juice concentrate. For the 2015 edition of the fair in October, we have already confirmed our participation in the event!!

New destination: FCOJ to USA

We are pleased to share with our dear customers that we also started shipping our FCOJ to the United States! This is a result of a preliminary action from some

cautious customers anticipating difficulties of supply from Florida fields, where the situation is serious and exponentially complicated due to the greening disease.

HALAL

We are proud to inform that, now, our FCOJ is well Halal certified by Fambras – Federation of Muslims Associations in Brazil.

Brazilian institute indicates a greater 2015 peanut crop

The Brazilian Institute of Geography and Statistics - IBGE - announced the forecast for the 2015 season of grains in Brazil and, according to them, the production will reach 202.1 million tones, i.e., an increase of 3.9% compared to the previous forecast.

For peanuts in shell, it is estimated that the production of the first crop, to be harvested from February on, will grow by 18.6% compared to the previous year, as a result of the increase in planted hectares driven by the strong reaction of export prices for the blanched product and, recently, by an even more favorable situation to exporters, which is the depreciation of the Brazilian real against the U.S. dollar.
